1 Remote Control Basics

Turn Your Set Top Box or TV On or Off

The device selection buttons tell your remote whether you want to control your set top box or your television.

To turn your TV on or off, press the **TV** button then the **POWER** button.

To turn your set top box on or off, press the **STB** button and then the **POWER** button.

If pressing **POWER** turned the wrong device on or off, press the **POWER** button again, press the appropriate device selection button (**TV**, **STB**, **AUX**) and press **POWER** once more.

Note: It is not necessary to turn your set top box off. The information packet that comes with your remote control will give you other set-up options for your remote control.

Note: Your remote control must have the remote code programmed in before it can send the correct signals for your TV. If the list of TV brand codes was not included in your installation pack, please contact customer service.

Change Channels

The **CH ▲ / ▼** button will change channels up or down one at a time.

The **Number Pad** can be used to directly enter a channel number.

GUIDE will display the Interactive Programming Guide so you can find a program you like. If the program is on now, you can tune to the channel showing it. If not, you can set a scheduled event to remind you when it does come on. If your set top box supports recording, you can schedule a recording for the program.

For more information on how to use the Guide, see section **5 Guide**.

For more information on setting Reminders, Autotunes and Recordings, see **Setting a Reminder, Autotune or Recording** in section **6 Guide - Alerts & Recording**.

Adjust Volume

The **VOL + / -** button will adjust the volume gradually.

The **MUTE** button will quickly turn the sound on and off.

System Buttons

There are a number of buttons on your remote that display different features of your service.

MENU displays the Menubar when in cable [STB] mode, and in [TV] mode you will see your TV's menu. The Menubar provides quick access to every feature supported by your service.

For more information about the Menubar, see section **4 Menubar**.

INFO displays the Infobar, a feature that lets you see information on what you're watching, what's coming on next, and what's on other channels.

For more information on the Infobar, see section **3 Infobar**.

EXIT causes your set top box to exit whatever screen you are seeing and return you to normal TV viewing. If you ever get lost on a screen, it is always safe to press **EXIT** and then start over.

2 How To Use This Book

Layout

Instructions are paired with screen shots to illustrate the process and provide confirmation of what you should see on your TV.

Section headings and on-screen text, such as screen titles, messages and options are shown in **Blue Bold Type**.

Buttons on the remote control are represented by a graphic of that button, or **Red Bold Type** when a graphic cannot be shown.

Color-Codes & Icons

Program listings may display icons based on settings for a particular program.

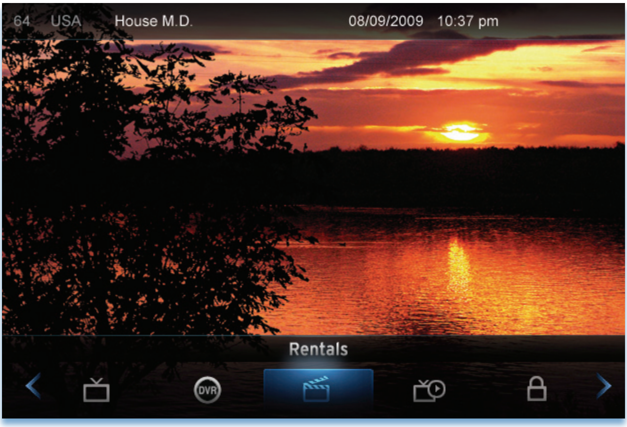
4 Menubar

Introducing the Menubar



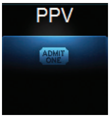
The Menubar is a quick and easy way to access any feature of your service.

Go To the Menubar

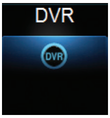
To display the Menubar, press **MENU** on your remote control. Press the **Left/Right Keys** on your remote control to move the highlight through the menu. Press **Menu** again to exit or press **Exit** on your remote control.

Understanding the Menubar

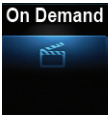
Guide will bring up the program guide. For information on Guide, please see section **5 Guide**. To record or edit a recording, please see section **6 Guide - Alerts & Recording**.



PPV jumps directly to the Pay Per View channels in the program guide. For information on PPV, please see section **9 Pay Per View**.



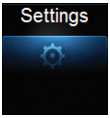
DVR allows you to watch existing recordings, access a list of scheduled recordings, and edit and sort both. You can also create a recording (Schedule Event) and prioritize conflicting series recordings. For information on DVR, see section **8 DVR**.



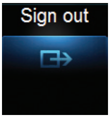
On Demand provides access to Video On Demand movies and programs available to rent. For information on Video On Demand, see section **10 On Demand**.

4 Menubar

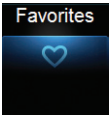
My Library provides quick access to active Video On Demand purchases or programs, reminders you have scheduled, messages regarding your service, and Caller ID history (Caller ID coming soon). For more information on My Library, see section **11 My Library**.



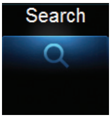
Settings offers access to creating parental controls and setting blocked channels, determining how things appear on the screen (such as TV Caller ID), and creating, editing and deleting user accounts. For information on **Settings**, see section **12 Settings**.



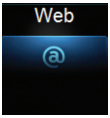
Sign Out allows you to sign out of the current user account. This only appears if you are using the **Enable Login** option under **Settings/Preferences**, have multiple user accounts, and have signed in with a user name and password. For information on user accounts, see **User Settings** in section **12 Settings**.

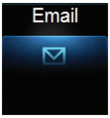


Favorites allows you to choose, edit, create or delete a favorite channel list. For information on Favorites, see section **15 Favorites**.



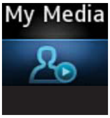
Search allows you to search program listings or Video on Demand rentals by title or key words. For information on Search, see section **16 Search**.





Web & Email allows you to browse the Internet and check your Home Telecom Email. For information on Web and Email, see section **17 Web & Email**.

Widgets offers access to headlines in news, sports, finance, Twitter access, and weather information. For more information on Widgets, please see section **18 Widgets**.



My Media enables you to play and manage digital media content (video, pictures, and music) that is stored on devices that have a DLNA (Digital Living Network Alliance) server/ application installed. For more information, see **19 My Media**.

Cloud TV gives you the opportunity to access and watch a variety of internet programs on your TV screen. For information on Cloud TV, see section **20 Cloud TV**.

5 Guide

Introducing Guide

Guide is the place to quickly find out what's on now and what's playing later. You can set Reminders or Recordings for upcoming programs in Guide.

Go To Guide

There are two ways to go to Guide.

You can press **GUIDE** on the remote control. You could also press **MENU**, scroll to **Guide** icon, and press **OK**.

Getting Around Guide

To navigate Guide…

- Move to a channel by entering the channel with the **Number Pad (0-9)**.
- Use the **Arrow Keys** on the remote to move the highlight through the Guide, channel by channel.
- Press the **Up** or **Down Arrows** to move the highlight to view what programs are currently showing on different channels.
- Press the **Left** or **Right Arrows** to move the highlight to view what future programs will be showing up to 7 days into the future.
- Press **Page Up** or **Page Down** to jump up or down one screen of listings.
- Press **OK** to preview a current highlighted show on the Guide in the upper-left corner of your TV screen. To view the program full screen, press **OK** again.
- Continuing to press the **Guide** key on your remote will switch the **Favorite** list to **All**, **Subscribed**, **HD**, **PPV**, and any **Favorites** lists that you have created. This causes the Guide to only display the channels included on each list. Cycling to **All** will display all available programming.
- Press **EXIT** to leave the Guide.

Favorites List in Guide

A Favorites list allows you to select channels you watch most often, placing them on a list that is quickly accessed in **Guide**. For more details about creating, editing, or naming a Favorites list, see section **13 Favorites**.

Note: If you can't see all your channels, you may be limited by the Favorites list you've selected. Selecting All will display all available programs. Other Favorites lists will only display the channels you've previously added to that list.

HDTV Programming

Programs available in HD will appear in Guide with a blue **HD** icon next to the name of the program. In order to watch HD programming, you will need an HDTV-capable set top box and TV, and may need to subscribe to an HD channel package.

Channels determines whether the series is recorded when aired on the channel originally set to record, or record the series on whatever channel airs it.

Preference determines whether to record the program when shown in standard definition or only when shown in high definition.

Episodes determines whether to record re-runs and new episodes of the series or only new episodes.

Start and **End** determines how much time to add at the start and end time of the recording so that none of the program is missed.

Limit To determines how many episodes of the series are saved. If set to anything other than **All**, the system will delete the oldest recorded episode of the series once the limit is reached.

Once you have adjusted the series settings, highlight **OK** and press **OK** to save your changes.

You can also start a quick record in **Guide**.

Highlight a program you want to record using the **Arrow Keys** and press **RECORD**.

If the program is currently on, recording will begin immediately. The program will be recorded until it is scheduled to finish. To manually stop the recording before it is finished, press **STOP**.

General Guidelines About Recordings

Your TV can even be turned off and recording will take place.

You can record one program and watch a different live program or recording simultaneously.

Multiple recording capabilities will vary depending on a variety of factors. Please contact your local Home Telecom office for more information on your capabilities.

Pausing Live TV

Recording capability also allows you to pause live TV. While watching a live program, hitting the pause button will temporarily store what you have watched. You can resume watching by pressing the play button.

Controlling Live TV

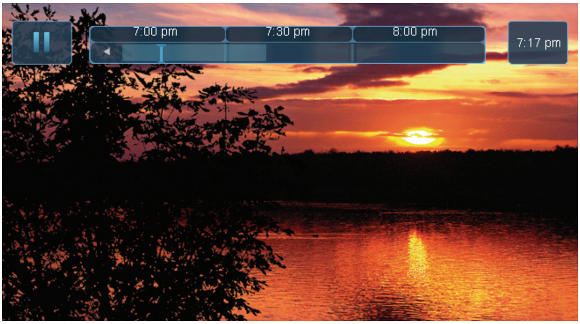
While watching a recorded program or live TV, you can use the **Playback Control Buttons** to control video playback.

⏸ Press **PAUSE** on your remote control to pause the program. Programs can be paused as long as the current channel is not changed.

▶ Press **PLAY** to resume watching.

◀◀ ▶▶ Press **REWIND** or **FAST FORWARD** to reverse or advance playback from the current point. Press repeatedly to increase **FAST FORWARD** or **REWIND** speed.

■ Press **STOP** to exit playback of the program.



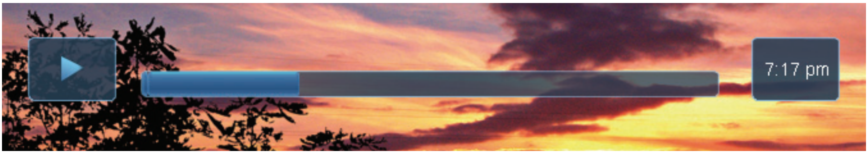
The Pause live TV bar appears whenever you pause, rewind or fast forward live TV.

The center area indicates the amount of program saved. The “I-bar” shows where you are within that range.

The far left box indicates the current playback function.

The far right box indicates the current time.

DVR Playback Controller



Any time you press one of the **Playback Control Buttons** while watching a previously recorded program, the DVR playback controller is displayed.

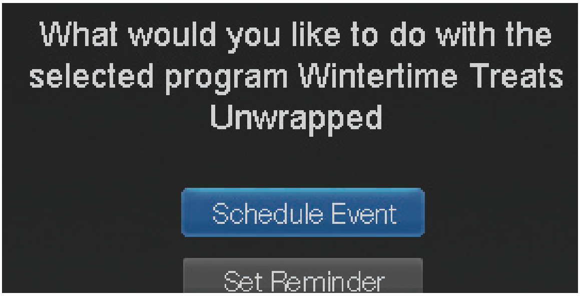
The box to the left indicates the playback function in use.

The bar in the middle gives a visual representation of where you are in the recording.

Schedule Event

With **Schedule Event**, you can select the channel, date, start and stop time, duration, and frequency of a recording. It is helpful when you want to record or watch a portion of a program on a reocurring basis.

Accessing the Schedule Event Screen



What would you like to do with the selected program Wintertime Treats Unwrapped

There are two ways to access the screen.

Option 1:
When you select a future program in **Guide** and press **OK**, select the **Schedule Event** option from the pop-up menu.

The **Schedule Event** screen is populated from the channel you were watching and will change when you select a future program in the Guide.

Option 2:
Press **MENU** on your remote control, navigate to **DVR**, then scroll down to **Schedule Event**, and press **OK**.

Configuring the Schedule Event Screen

When the on-screen keypad is up, the yellow (●) button will change to say **Exit**. Press the yellow (●) button on your remote to **Exit** the keypad.

The green (●) button on the On Demand menu screen will toggle between showing **Free Only** programs and **All Movies**, and is accessed by pressing the green (●) button on your remote. When you toggle these options, the On Demand menu screen itself will change and show **Free Movies** and then **All Movies** (which include paid movies).

Stop a Video and Exit On Demand

If you wish to exit the video, press **STOP** on your remote to return to the last On Demand menu screen viewed.

To exit the **On Demand** menu screen and return to live programming, press **EXIT** on your remote.

System Upgrade

We will be performing a system upgrade of your service September 8 at 3:00 am. This may cause a brief interruption of service. We apologize for any inconvenience.

Highlight the message listing you want to read. The full message will be displayed in the Info Area in the upper right-hand corner of your screen.

Introducing Caller ID (Coming Soon)

Caller ID offers access to your Caller ID call log. You can review your Caller ID history and delete individual entries.

Note: You must subscribe to Caller ID to access this feature. Additionally, only certain set top boxes support on-screen Caller ID. Please contact local Home Telecom office for more information.

Whenever you receive a call, an alert with the incoming call information will appear in the upper corner of your screen. This alert will be removed after a few seconds. These settings can be controlled from the **Preferences** in the **Settings**.

12 Settings

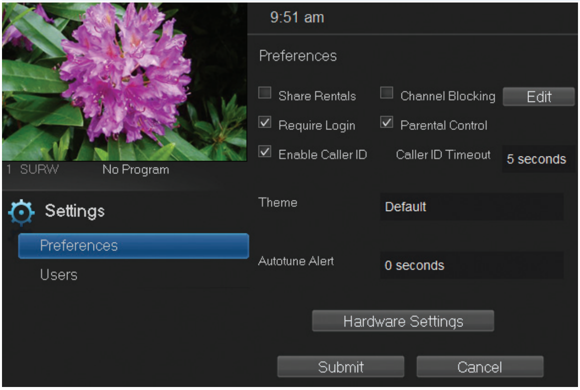
Introducing Settings

Settings gives you control over your video service. You can choose to share purchased programs, change how alerts appear on your screen, create parental controls, and block programs by channel or ratings. You can also create accounts for members of your family.

Go To Settings

Press **MENU** and highlight **Settings**. Then enter your password, highlight **OK** and press **OK**. There are two main sections of **Settings**: **Preferences** and **Users**. Both are used for setting up parental controls.

Activating Parental Control



Preferences

☐ Share Rentals
☐ Channel Blocking
☑ Require Login
☑ Parental Control
☑ Enable Caller ID
Caller ID Timeout: 5 seconds

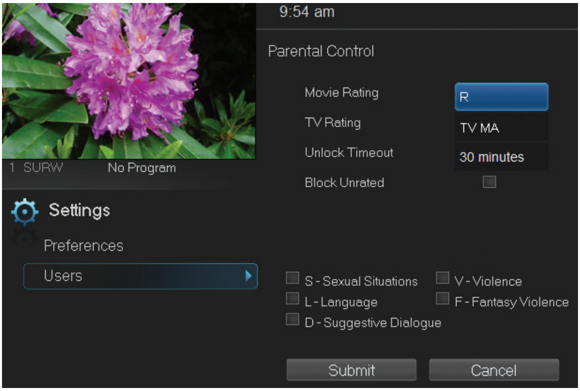
Arrow to **Parental Control** under **Preferences** and press **OK** to check the box. **Arrow** to **Submit** and press **OK**. You will be returned to live TV. Navigate back to **Settings** and enter your account password.

Selecting Parental Control Settings



Parental Control

Movie Rating: R
TV Rating: TV MA
Unlock Timeout: 30 minutes
Block Unrated: ☐

☐ S - Sexual Situations
☐ V - Violence
☐ L - Language
☐ F - Fantasy Violence
☐ D - Suggestive Dialogue

Arrow Down to **Users** and press **OK**. Highlight **Parental Control** and press **OK**.

A new screen appears listing the **Parental Control** topics.

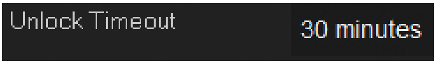
Arrow Up and **Down** to check the controls you want to set for your household.

Both **Movie** and **TV Ratings** should be set. Setting one will not block the other's content as they have different rating values. For more information about **Movie** and **TV Ratings**, see the ratings definitions in the appendix of this guide.

Movie and TV ratings determine the highest rating for programs that will be accessible. All levels above the selected rating will be blocked.

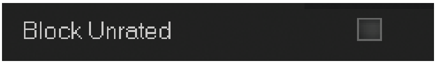
Unlock Timeout (Only Accessible from Master Account)

Unlock Timeout determines how long parental controls will remain disabled. The Unlock feature will automatically turn parental controls back on when they have been temporarily disabled.



Unlock Timeout 30 minutes

To set Unlock Timeout, highlight the option box next to **Unlock Timeout** and press **OK**. Use the **Right/Left Arrow Keys** to select the desired duration, then press **OK**.

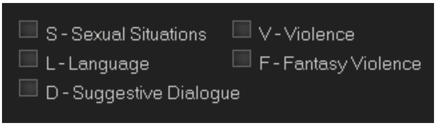


Block Unrated ☐

Block Unrated (Only Accessible from Master Account)

The **Block Unrated** option allows or blocks any program that does not have a rating.

To turn Block Unrated on or off, highlight the check box and press **OK**.



☐ S - Sexual Situations ☐ V - Violence
☐ L - Language ☐ F - Fantasy Violence
☐ D - Suggestive Dialogue

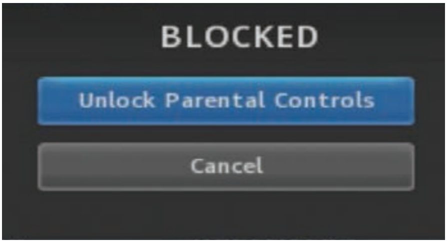
Content Rating

To block a particular type of content, highlight the check box to the left of that item and press **OK**.

Note: If you block unrated programs with parental control settings, you may be blocking a sports or news program that isn't rated. This will also effect available Video On Demand content.

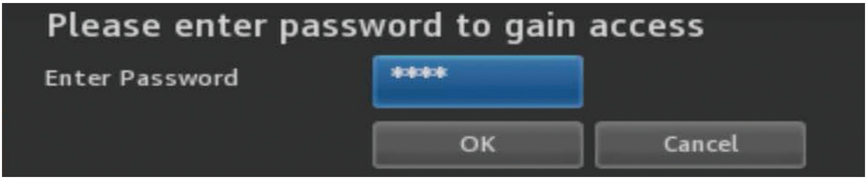
Turning Parental Controls On and Off

Once you have finished your selections, **Arrow Down** to **Submit** and press **OK**. Parental Controls will now be turned on. To turn off Parental Controls, go to **Guide** and select the **Restricted** program replacing the program's title, highlight, and press **OK** on your remote.



A dialog box pops up that says **Unlock Parental Controls** and **Cancel**.

If you choose **Unlock Parental Controls**, you're then prompted for your password and parental controls are unlocked for the duration specified by the **Unlock Timeout** feature.



Please enter password to gain access

Enter Password *****

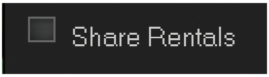
You set the amount of time you want for the **Unlock Timeout** to be in effect under the **Parental Controls** settings as explained earlier in this section. To turn Parental Controls off for an undetermined amount of time, uncheck the check box marked **Parental Controls** in **Settings Preferences**.

Note: For an additional way to turn Parental Controls on/off, see section 13 Controls.

Working With Additional Preferences

Share Rentals

Share Rentals controls whether purchased programs are made available for any user (enabled), or only available to the user who made the purchase (disabled).

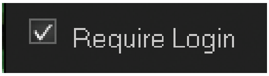


☐ Share Rentals

To turn on or off, highlight the check box and press **OK**. Checked rentals will appear on purchase screens.

Require Login

Require Login determines if a user name and password must be entered before being able to use your TV service. If you have multiple users in your home, this would allow you to set divergent parental controls for each user.

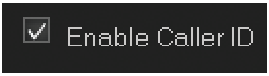


☑ Require Login

To turn Require Login on or off, highlight the check box and press **OK**. This ensures that the additional users or sub accounts must log in to watch programs.

Enable Caller ID (Caller ID coming soon)

Enable Caller ID turns on or off screen alerts for incoming calls. You will need to have telephone service with Home Telecom in order to take advantage of this feature.

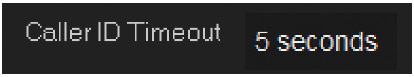


☑ Enable Caller ID

To turn Enable Caller ID on or off, highlight the check box and press **OK**.

Caller ID Timeout (Caller ID coming soon)

Caller ID Timeout determines how long Caller ID notifications remain on the screen.



Caller ID Timeout 5 seconds

To set Caller ID Timeout, highlight the option box to the right of **Caller ID Timeout** and press **OK**. Then press the **Right or Left Arrow Key** to rotate to the amount of time you want the alert displayed, then press **OK**.

Channel Blocking

Channel Blocking enables or disables the list of channels you have blocked. Blocked channels do not appear in Guide.

☐ Channel Blocking
Edit

To turn Channel Blocking on or off, highlight the check box and press **OK**.

To edit the list of channels that are blocked, highlight the **Edit** button and press **OK**.

Channel Blocking Edit displays a list of all channels available. You can then block or unblock any channel. Blocked channels will appear with a padlock icon next to them in the Edit screen, but WILL NOT APPEAR in channel lineup. Parental Control does not need to be turned on for this feature to be active.

☐ Channel Blocking
Edit

To block channels, highlight the **Channel Blocking Edit** button and press **OK**.

If no changes have been made on the **Preferences** screen, you will go directly to the list of all available channels. If any changes *have* been made to the main **Preferences** screen and you have not already updated them, a **Save Changes** box will appear. Highlight **YES** and press **OK** if you wish to save these changes. The **Settings Successfully Updated** notice will then appear. Highlight **OK**, and press the **OK** button.

The **Channel Blocking** list will appear.

To block/unblock a channel, highlight the channel entry and press **OK**. A blocked channel will have a padlock icon on the right side of the channel name.

To go to the next screen of channels, press the **Up or Down Arrow Key**. When complete, **Arrow** to update and press **OK**.

Autotune Alert

Autotune Alert determines how early an Autotune alert will appear prior to the beginning of the selected program.

Autotune Alert 0 seconds

To set Autotune Alert, highlight the option box to the right of **Autotune Alert** and press **OK**. Then press the **Right or Left Arrow Key** to display **0 seconds, 30 seconds, 2 minutes** or **5 minutes**, then press **OK**.

0 seconds will display your Autotune Alert at the exact time the program begins, where setting to 1 minute will alert you 1minute before you program begins.

13 Controls

Introducing Controls

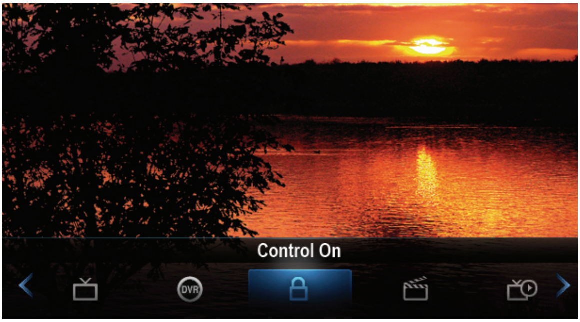
Note: Parental Controls must be set up in Settings before the Control On/Off icon will appear on the Menubar. For more information on Parental Control settings, see pages 44-46.

Parental Controls are available once you have enabled them in the **Settings** menu. They enable parents to selectively block programming by channel or rating.

Controls let you turn on and off the parental controls you have set. When the controls are on, the kids can watch TV without seeing an inappropriate program. When the controls are off, adults can watch their programs without repeatedly entering a password.

When the controls are on, even titles of programs that exceed your parental control settings will not be shown. Once the controls are turned off, all program titles will be shown.

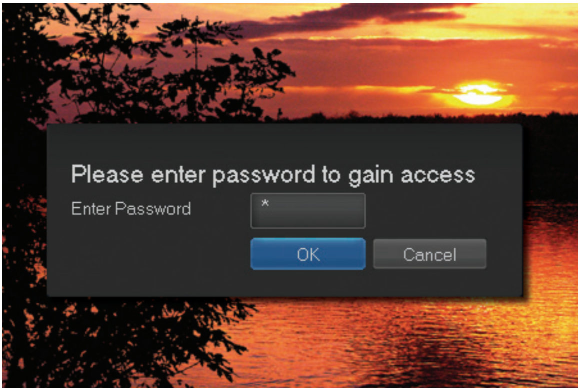
Turning Controls On



Press **MENU** and highlight the **Controls** icon. The Menu lets you know if the controls are on or off.

If parental controls are in effect, the icon will say **Control On**.

Turning Controls Off

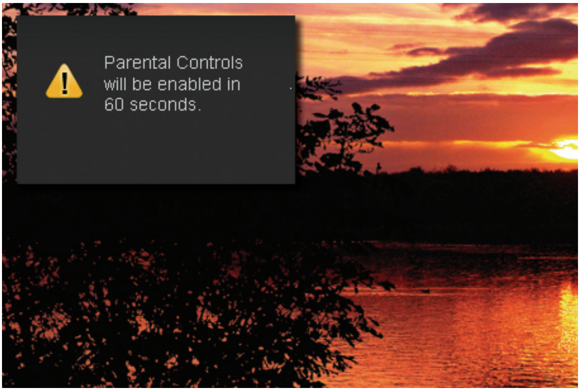


Please enter password to gain access

Enter Password: *

Highlight the **Control On** icon and Press **OK** to bring up the password screen. Use the **Number Pad** on your remote to enter your parental controls password. Then highlight **OK** and press **OK** on your remote.

When you disable the controls, they will remain that way until you turn them back on, or the Parental Control Unlock Timeout is reached. The time out is the maximum period of time for which the parental controls will be disabled.



Parental Controls will be enabled in 60 seconds.

At the end of the Parental Control Unlock Timeout, the system will automatically restore parental controls. You will see an alert on the screen just before parental controls are restored.

☐ D - Suggestive Dialogue

This Parental Control Unlock Timeout is located in **Settings** (see **12 Settings**, page 45).

In **Settings** click on **Users**, then **Parental Control**, then select the option **Unlock Time Out**, then select the amount of time.

This ensures your parental controls will remain in effect in case you watch an adult program and forget to turn the controls back on.

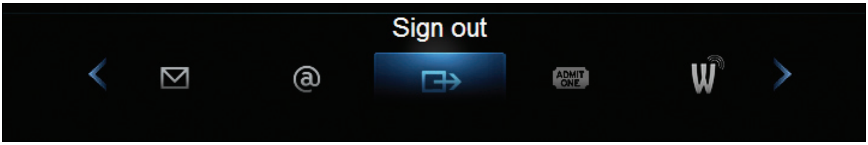
Turning Controls On Again

Press **MENU** and highlight **Control Off**, then press **OK**. The icon will change to **Control On**, and the parental controls are now in effect.

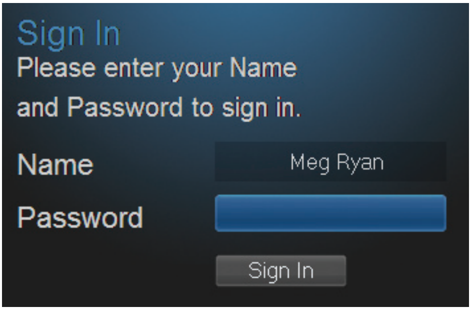
Sign Out / Sign In

This function is typically only used if there are multiple user accounts, usually when a parent adds a child as a new user. The parent's account (master account) controls the child's account (sub account).

Go To Sign Out / Sign In



Press the **MENU** button on the remote. Scroll the menubar to the **Sign Out** icon and click **OK**.



Sign In

Please enter your Name and Password to sign in.

Name: Meg Ryan

You will then be signed out of your user account, and the **Sign In** screen will appear. Highlight the **Name** entry box and press **OK**.

Use the **Up/Down Arrows Keys** to select the name for the desired account and press **OK**. Then highlight the **Password** entry box and enter the password used for the desired account. Highlight **Sign In** and press **OK**.

When a new user signs in, parental controls and other set restrictions for that account will be imposed.

15 Favorites

Introducing Favorites

Save time and enjoy the channels you watch the most. Each Favorites list contains just the TV channels you wish to view. You can create multiple Favorites lists and quickly change the Guide to show them.

Go To Favorites

Press **MENU** and highlight **Favorites**, then press **OK**.

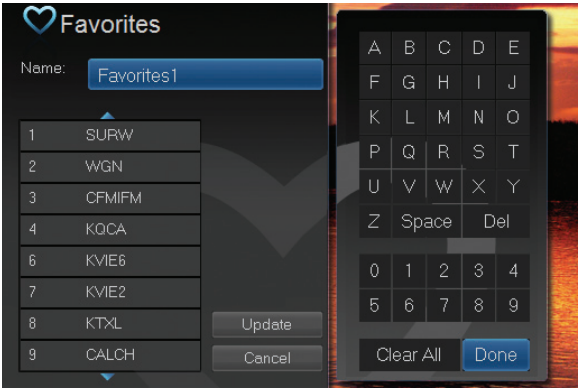
A screen will appear with options to choose, edit, create a list, delete a list, or cancel.

Creating or Editing a Favorites List

Step 1: Create or Edit

Follow the steps in "Go To Favorites," highlight **Create** or **Edit**, and press **OK** to bring up the **Favorites** create/edit screen. This screen displays every channel available.

Step 2: Name Your Favorites List



Name: Favorites1

1	SURW
2	WGN
3	CFMIFM
4	KQCA
6	KVIE6
7	KVIE2

The **Name** box is already highlighted. Press **OK** to bring up the on-screen keyboard.

Then, highlight **Clear All** and press **OK** to clear the default name. Now you can enter the name for your Favorites list using the on-screen keyboard.

Highlight each letter in the new name and press **OK**. Once you have entered your desired **Favorites** name, highlight **Done** and press **OK**.

Step 3: Choose Your Favorite Channels

Arrow Up and **Down** and select the channels to add or remove from your Favorites list and press **OK**. A channel included in the Favorites list shows a heart icon ♡ to the right of the channel name.

To save your Favorites list, **Arrow Right** and highlight **Update** and press **OK**.

To cancel your Favorite list without saving it, highlight the **Cancel** button at the bottom right of your screen and press **OK**.

Choosing a Favorites List

There are two ways to choose a Favorites list:

Option 1: Favorites From the Menubar

Follow the steps above in “Go To Favorites,” then highlight **Choose** and press **OK**. Then highlight the Favorites list you wish to access and press **OK**.

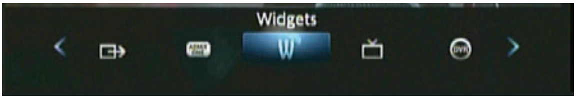
Introducing Widgets

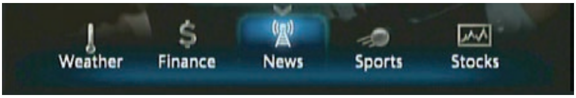
Widgets provide access to up-to-date news headlines, entertainment news, weather, finance, Twitter, sports news and other information.

Go To Widgets

Press **MENU** on your remote control and highlight **Widgets** using the **Arrow Keys** then press **OK**. The icon associated with **Widgets** may look different depending on the Theme you are using.



The main menu is replaced with the **Widgets** menu.

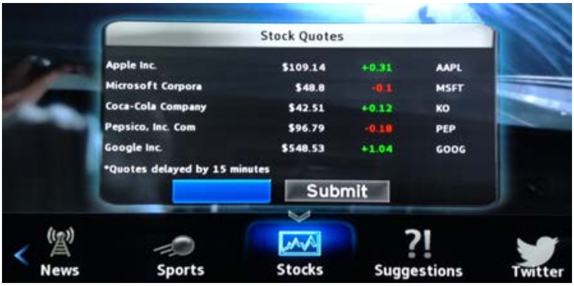


Using Widgets

Each icon on the Widgets menu provides access to information related to that icon. When you scroll to **Finance**, **News**, or **Sports** on the Widget menubar and click **OK**, current news headlines for that topic appears. Use your **Right/Left Arrows** to scroll to additional information screens. Use **Exit** or the **Down Arrow** on your remote to close the information screen and return to the menubar.

Stocks Widget

This widget allows you to view up to date stock quotes by entering the company's ticker symbol. Follow these steps to operate the Stocks widget.



Stock Quotes

Apple Inc.	$109.14	+0.31	AAPL
Microsoft Corpora	$48.8	-0.1	MSFT
Coca-Cola Company	$42.51	+0.12	KO
Pepsico, Inc. Com	$96.79	-0.18	PEP
Google Inc.	$548.53	+1.04	GOOG

*Quotes delayed by 15 minutes

Step 1: Bring up the Stocks Widget

Select the **Stocks** widget from the widget menubar and press **OK**. The **Stock Quotes** window will appear either showing no stocks if you have not used the widget before, or it will appear with the last five stock quotes you submitted.

NOTE: You may only view 5 quotes at a time. Entering a sixth ticker symbol will cause the oldest stock in the widget to fall off your list.

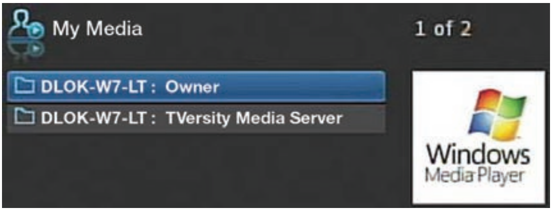
Introducing My Media

My Media enables you to play and manage digital media content (video, pictures, and music) that is stored on devices that have a DLNA (Digital Living Network Alliance) server/application installed. The sharing of such media can only occur if the device is on the same network as your set top.

How To Use My Media

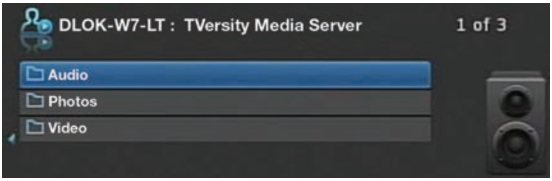
Step 1: Go To My Media

Press **Menu**, scroll to the **My Media** icon, then press **OK**. In a few moments, the set-top box displays a list of all authorized DLNA connected devices available in your local area network. These devices can be any smartphone or tablet that has downloaded a free DLNA sharing application or has one included on the device.



Step 2: Choose a Device and Content

Highlight the device that has the content you want to play then press **OK**. A list of content files on that device is displayed:



Step 3: Navigating

Arrow Up and **Down** to navigate the files.

Step 4: Play Your Content

When you've found the file you'd like to play, you can proceed two different ways: Press **OK** to play/display only the highlighted file. You could also press **Play** to start a slideshow that will play/display all content in that folder that is of the same content type (video,photo, audio). Press **Stop** to stop the slideshow and return to view the other folders.

Step 5: Exit My Media

To exit your **My Media** session, simply press **Exit** on your remote.

21 YourTV App with Remote Scheduling

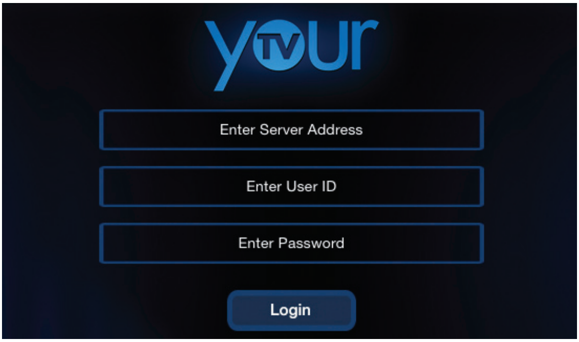
Introducing iTV App with Remote Scheduling

Remote scheduling allows you to schedule new recordings and manage existing ones through your smart phone or tablet while away from your home. You can then view the recordings later at home by using the DVR application on your set-top box(es). The YourTV application also allows you to search Live TV programming and Video On Demand content. For the purpose of this User's Guide, all instructions and screenshots are formatted for the YourTV for iPad application. Images and instructions below may vary slightly when using a different device or platform.

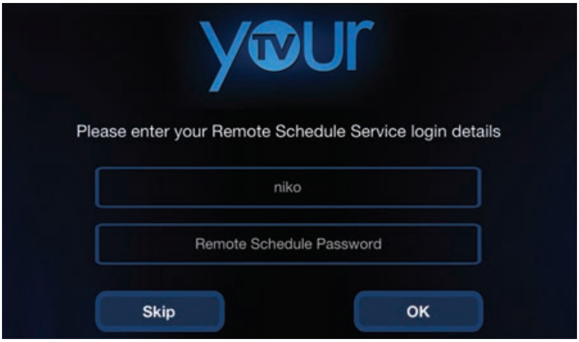
Getting Started

To get started with setting up your Remote Schedule service, follow these steps:

1. First, download the free YourTV app from the **App Store** or **Google Play**, and open the app.



2. Enter your **Server Address** (**https://yourtv.homesc.com**), your **User/Customer ID** (provided by Home Telecom), and **Password** (last four digits of your Video Network number). Then tap **Login**.



Please enter your Remote Schedule Service login details

niko

3. Re-enter your **Password** (last four digits of your Video Network number) to authorize the Remote Scheduling service, and tap the **OK** button.

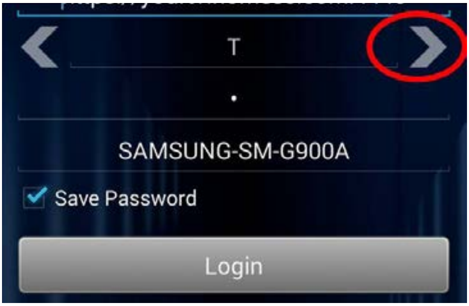
Login with Sub-Account

This option is only available when you have already signed in to the application using a master account that has one or more associated sub-accounts.

A sub-account is an account for users with specific limitations. A sub-account is associated with the parent's or guardian's account (the master account) and is managed by that primary account.

To login with sub-account's username:

1. Log out from YourTV application, if you haven't done so already.
2. Locate the Username field.



3. Tap the left or right arrow to choose from the available sub-accounts' usernames.

Note: The arrows are available only after you have been already signed in with your primary account and associated sub-account exists. If no sub-account has been created, the arrows are not present.

4. Tap the box containing "Password" and enter the password associated with the chosen sub-account. Then tap the Login button.

Scheduled Recording States

Once a program's episode or series is scheduled for recording on a certain recording device, it can be in one of the following states:

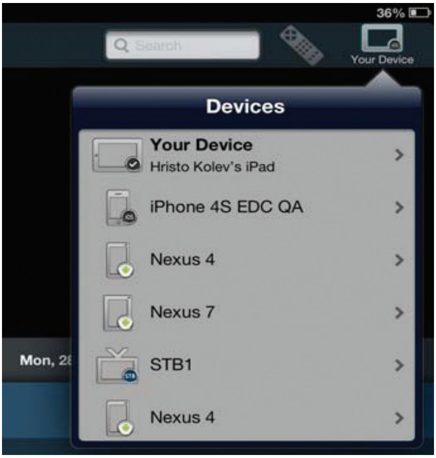
Recording Icon	Recording State Description
✓	Indicates that the scheduled recording has been completed.
REC	Indicates that the scheduled task is in a process of recording.
REC	Indicates that a current/series programming has been scheduled for recording.
REC	Indicates that a recording has been canceled. When in this state, the task can be enabled through the ⊕ button.
!	Indicates a conflict. When a task has been scheduled but: ■ the recording has been interrupted for some technical reasons. ■ the EPG has changed - for example, one programming has been substituted with another.

Delete Recordings

You can delete a recording by choosing the scheduled program from the Live view, tapping the **Scheduled** button and then tapping ⊗; or by going to the **Recordings** screen, browsing the single/series recording from the listed ones, locating the recording and tapping 🗑. You will be asked to confirm the action.

Touch Screen Remote Control

You can use the **YourTV** application to change channels, fast forward or rewind the video playback when watching TV.



To use the touch screen remote control:

1. Tap the Your Device icon. The Devices drop down menu appears.
2. Tap the remote STB device icon (for instance "STB1"). The Actions menu appears.

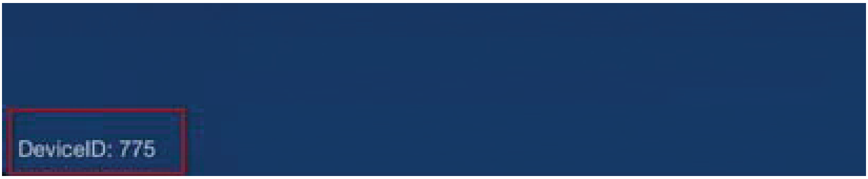
3. Tap the **OK** button.

Delete Devices

YourTV application shows your device's ID on the **Login** screen.



DeviceID: 775

When you need to have a device removed from your account, you will need to contact Home Telecom to have your device deleted. Please have this information ready by making a note of your DeviceID when launching the YourTV application.

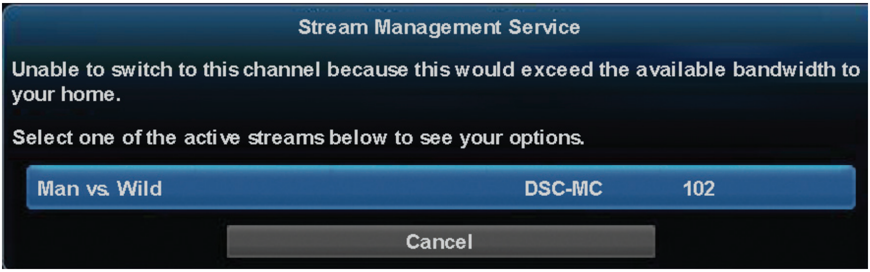
Note: YourTV (Remote Scheduling) is set by default to four smart devices (example three smart phones and one tablet). Please contact your local Home Telecom office to request any adjustments.

Stream Management

Stream Management lets you decide which channels to watch when you've exceeded your available video bandwidth to the home.

When a requested video stream exceeds the available bandwidth, the requesting STB displays messages that:

- Explain that the stream request exceeds available bandwidth.
- Offer alternative viewing options.



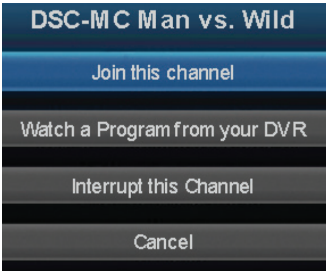
Stream Management Service

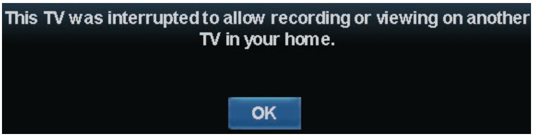
Unable to switch to this channel because this would exceed the available bandwidth to your home.

Select one of the active streams below to see your options.

Once you select an active stream to manage, the following options are presented:

- **Join this Channel**: the STB auto-tunes to the selected active channel.
- **Watch a Program from your DVR**: the STB displays the available DVR listings you can watch.
- **Interrupt this Channel**: the STB tunes to the channel you wanted and interrupts the other STB from its current channel viewing.
- **Cancel**: the message window closes and no video will stream on the channel. You must go to **Guide** or **Menu** or press **OK** to display the **Stream Management** options again.





This TV was interrupted to allow recording or viewing on another TV in your home.

If the **Interrupt this Channel** option is selected, this is the message other TVs that have been interrupted in the household will see.

Note: If you are attempting to tune to (or record) too many HD channels, your TV will revert to a black screen with a message saying to tune to an SD channel so you can resume your programming. A set top box that is tuned to an HD channel, but not being watched, will still consume the bandwidth. You may also correct this issue by simply tuning an unwatched set top box to an SD channel.

Movie Ratings

MPAA (Motion Picture Association of America) Ratings System

G
GENERAL AUDIENCES
All Ages Admitted

G – General Audience

According to the MPAA Rating board, a movie with this rating does not contain offensive material and is appropriate for all ages.

PG
PARENTAL GUIDANCE SUGGESTED
SOME MATERIAL MAY NOT BE SUITABLE FOR CHILDREN

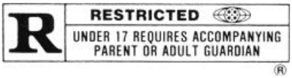
PG – Parental Guidance Suggested

PG-rated films call for parental guidance. There may be some profanity, mild violence, or brief nudity in these films. But these elements are not deemed so intense as to require that parents be strongly cautioned beyond the suggestion of parental guidance. There is no drug use content in a PG-rated film.

PG-13
PARENTS STRONGLY CAUTIONED
Some Material May Be Inappropriate for Children Under 13

PG-13 – Parents Strongly Cautioned

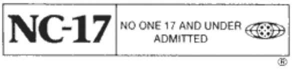
A PG-13 film is one which leaps beyond the boundaries of the PG rating in theme, violence, nudity, sensuality, language, or other contents, but does not quite fit within the Restricted "R" category. Any drug use content will initially require at least a PG-13 rating.



R
RESTRICTED
UNDER 17 REQUIRES ACCOMPANYING PARENT OR ADULT GUARDIAN

R – Restricted

An R-rated film may include hard language, tough violence, nudity within sensual scenes, drug abuse, and/or other mature elements. Parents are counseled to take this advisory rating very seriously.



NC-17
NO ONE 17 AND UNDER ADMITTED

NC-17 – No Children 17 or Under

NC-17 does not necessarily mean "obscene or pornographic" in the often accepted or legal meaning of those words. The reasons for the application of an NC-17 rating can be violence, sexual activities, aberrational behavior, drug abuse, or any other highly mature elements that most parents would consider off-limits for viewing by their children.

TV Ratings

TV Parental Guidelines Ratings System

The TV Parental Guidelines ratings provide program ratings and content ratings. This provides a clearer idea of the reason for a program's rating.

Program Ratings

TV-Y – All Children

This program is designed to be appropriate for all children.

TV-Y7 – Directed to Older Children

This program is designed for children age 7 and above. It may include mild fantasy violence or comedic violence.

TV-G – General Audience

Most parents would find this program suitable for all ages.

TV-PG – Parental Guidance Suggested

This program contains material that parents may find unsuitable for younger children.

TV-14 – Parents Strongly Cautioned

This program contains some material that many parents would find unsuitable for children under 14 years of age.

TV-MA – TV Mature Audience Only

This program is specifically designed to be viewed by adults and therefore may be unsuitable for children under 17.

Content Ratings

Content Ratings are shown just below the program rating.

FV: Fantasy Violence (only applied to TV-Y7)

For those programs where fantasy violence may be more intense or more combative than other programs in this category.

The meaning of a content rating increases as the program rating increases.

V: Violence	TV-PG: Moderate; TV-14: Intense; TV-MA: Graphic
S: Sexuality	TV-PG: Some; TV-14: Intense; TV-MA: Explicit
L: Language	TV-PG: Infrequent; TV-14: Strong; TV-MA: Crude
D: Dialogue	TV-PG: Some; TV-14: Intense; TV-MA: Not used

For more information on TV Parental Guidelines Monitoring Board and its rating system, please visit www.tvguidelines.org.

Note: If you block unrated programs with parental control settings, you may be blocking a sports or news program that isn't rated.
