

SmartTown

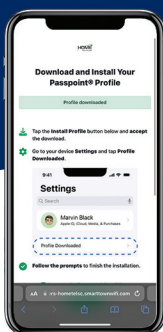

FREE Wi-Fi

COMMUNITY-WIDE

With SmartTown Wi-Fi, you can enjoy high-speed, secure internet access around your community.

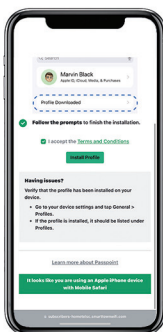

Follow these steps to set up your encrypted Home Telecom SmartTown Passpoint Profile:

1

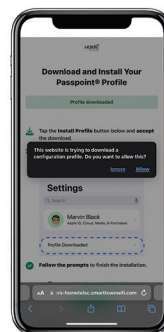

Check your email for instructions to access the **Passpoint® Profile Download** page. Follow the screen prompts to download the **Passpoint® profile**. If you are unable to create your **Passpoint® profile**, please call **888-746-4482** and we can help!

2

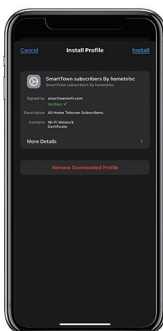

Open your device **Settings** and select the **Profile Download** tab.

3

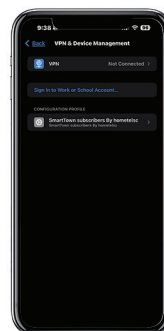

Download the secure profile by tapping **Allow** when prompted.

4

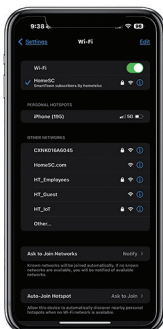

Tap **Install** and enjoy protected Wi-Fi from Home Telecom!

5

Your Passpoint certificate will now be accessible in the **VPN & Device Management** location on your phone if you need to make changes at a later time.

6

You are now able to join SmartTown Wi-Fi by selecting the **HomeSCcustomer** network!

Enjoy the seamless connection with SmartTown Wi-Fi on the go!

No personal information is required to connect to SmartTown. Home Telecom will never ask for personal information on a site linked from a QR code. After connecting to SmartTown Wi-Fi by Home Telecom, you will be automatically connected where SmartTown Wi-Fi is available. You can turn off SmartTown Wi-Fi in your device settings at any time.
