

Step 1: From your DVR and using your Interactive Guide remote control, click **Menu** on your remote **TWICE**. This will bring up your DVR Main Menu. Select **“Setup”** from the Main Menu.

Step 2: Once you are at the Setup Menu, select **“Remote Access Setup”**.

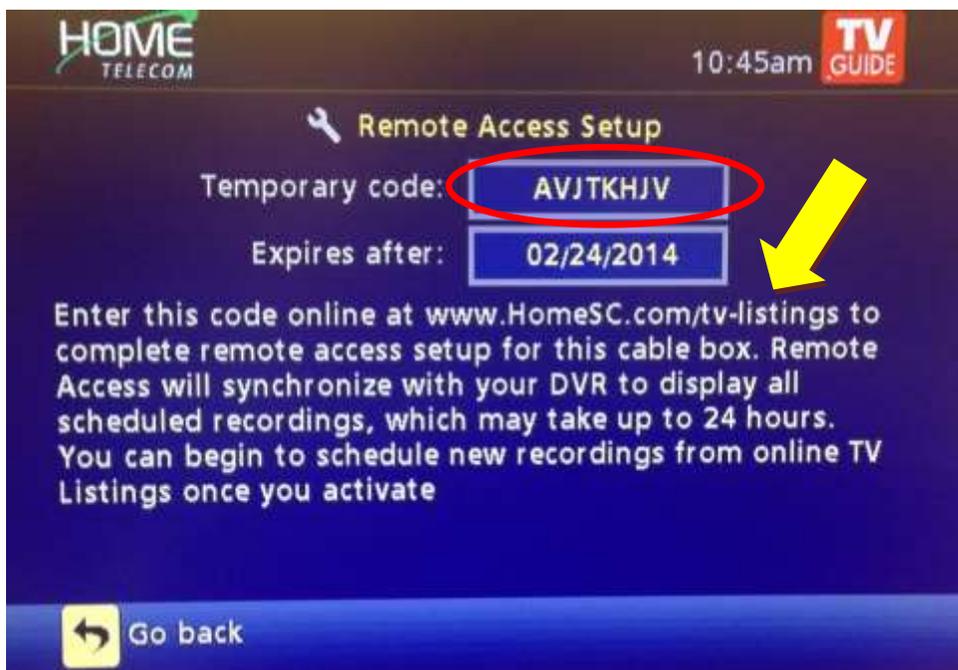

Step 3: You will then be greeted with a message explaining the Remote DVR service. From this message, please select **“Begin setup”** if you wish to proceed.

Step 4: You now have a Temporary code associated with your DVR. Please write this code down in order to complete your online registration at the website listed – www.HomeSC.com/tv-listings.

If you do not complete your online registration by the expiration date shown, you will need to repeat Steps 1-4 in order to receive a new Temporary Code.

Step 5: At www.HomeSC.com/tv-listings, you will need to click “Sign In” in the top left hand corner of the TV Listings grid in order to complete your registration.

Step 6: From here, simply follow the on-screen steps and instructions in order to complete your registration. If you are having trouble finding our channel line-up by using your billing zip code, please use “29461” and select the channel line-up presented. Should this occur, we would greatly appreciate a quick email alerting us to this instance with the inclusion of the zip code you attempted to use.

HomeTV2Go users will need to register for a new username and password to be associated with the Remote DVR Scheduling services only. Upon completion of your registration, your DVR gauge will read 100% while your DVR is syncing to the online service. This may take up to 24 hours.
